

CHAIN LUBE

Description

CHAIN LUBE is formulated with a blend of high performance lubricants. This product can be used for most manufacturing industries including metal working, stamping, machining, assembly, automation, plastics, packaging etc. Ideal for automotive, industrial and sports vehicle applications. Also apply to O rings, chain drives, small cables, sprockets, flexible couplings and other metal machinery parts.

Use/Benefits

- Prolongs chain life by penetrating into core
- Stabilize chain performance
- Special formulation provides superior load bearing, anti-wear and friction protection
- Chain lubrication will remain in place under high speeds
- Creates water-proof barrier that prevents rust and corrosion
- Repels dirt, sand and other contaminants

Physical Properties

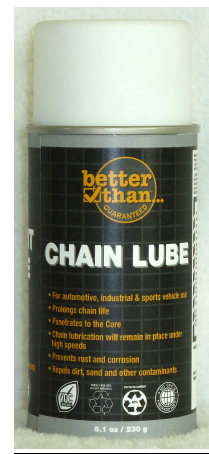

Colour	-	Grey
Odour	-	Mild solvent
pH	-	Not applicable
Flammable	-	Yes

Package

Can size: 12 oz
230 grams (8.1 oz)

Product

11111-BT130
