

## SUPER SILICONE

### Description

SUPER SILICONE lubricant is formulated to prevent sticking and corrosion and to protect rubber mouldings and weather-stripping. Excellent for Industrial, Automotive and Household applications.

### Use/Benefits

- Heavy Duty, High Viscosity formulation for super lubrication and protection
- Frees up sticking parts to reduce friction for better performance
- Prevents mould, grime and rust build-up
- Reduces risk of seizure when used on screws, bolts and joints
- Preserves rubber exterior moulding and weather stripping.
- Lubricates door hinges, windows and garage door tracks, power tools, sewing machines, etc.
- Eliminates squeaks
- Non-Chlorinated formulation

### Physical Properties

Colour	-	Clear/Colourless
Odour	-	Mild solvent
pH	-	Not applicable
Flammable	-	Yes

### Package

Can size: 20 oz  
340 gram (12 oz)

### Product

11111-BT306
