

INSECT REPELLENT 'Maximum Strength'

Description

Better Than (BT) Insect Repellent provides effective 6+ hour protection against the toughest biting insects at work or play. BT Insect Repellent is a registered product with Health Canada and contains the maximum allowable level of DEET. According to the Centres for Disease Control and Prevention, DEET is one of the best methods for avoiding West Nile Virus (WNV).

*How can you protect yourself and your family from mosquito bites and West Nile virus?
Use an insect repellent that contains DEET or other approved ingredients. **Source Health Canada***

Better Than Insect Repellent is also highly effective against several other irritating pests: Black flies, Deer Flies, Stable flies, Biting Midges, Ticks and Chiggers. BT's compact packaging and easy to use 360° no n greasy spray provides easier coverage for hard to reach places like ankles, legs and back.

INSECT REPELLENT 'Maximum Strength'

Recommendations

BT Insect Repellent's '*Sure Touch Spray Thru Dome*' technology allows the user to spray in any direction including up side down. Apply sparingly and reapply after 6 hours if necessary. **To Apply to Face:** Spray hands and apply to face, avoiding eyes and mouth. Always read product label directions before using.

Do's:

- Apply an even application of repellent on both clothing and skin
- Use only as directed on the product label
- Wear long pants and long sleeves, as well as shoes and socks for extra protection
- Keep Insect Repellents out of the reach of children

Don'ts:

- Do not use on children under 12 years old
- Do not apply repellent near eyes, mouth, and lips
- Do not apply to skin under clothing
- Do not over saturate the skin or clothing
- Do not puncture or incinerate container and store at temperatures below 50°C
